AL'KU TERRA formation

"The Eastfield crop formation is the AL'KU TERRA. This is the schematic for a working New Earth Ark MERKABAH able to not only travel inter-dimensionally but transport whole star fields from one dimension to another. These both define the orbital patterns of two large universal stellar systems...one contains the milky way and many, many other galaxies, and the other contains another large system that is in a parallel universe. (The inner star-field grid describes) The web of space where the connective points between these two universal fields are given. These are wormholes between the two universes." (THR/Maia)
