

"ROD OF NOACH"

"NOACH: 58: SILENCE, REST". OR "CHEN: LOVE, GRACE" (NOACH REVERSED)
 GRAPHIC SHOWS THE RESHEL AND ARK GEOMETRY, WITH THE KOBOL SPHERE.

★ SYMBOL FOR THE "ROD OF NOWACH" POLES.

ROD OF NOACH (THOTHORRA KHANDR, TRANSLATED BY MAIA KAMALA)

"Paths for high transmission Metatronic overlays within the Oritronic membrane. These paths are represented by the lightning path or center pillar on the Sephirothic Tree. They intercept the continuous interaction among Oritronic fields, creating superlatons of high magnetic vectors momentarily collapsing the neutra-field between the Oritronic and Metatronic Spirals. If the spin of itonic sequention (rapid sequential formation) is intense enough to create stable "Wormholes", blue needles will be formed in the wake of the lightning strike."

In another context Thoth also noted this about the Rod of Noach: " (The Rod of Noah is) ...a power geometric for installing "lightning paths" into the planetary field. These can be employed to create everything from new dimensions and stars to reality sub-structures within existing dimensions."

The Rod of Noach is part of the Reshel format however our light groups have not yet used it with intention even though it has interacted occasionally ...as lightning strike... within the group processes. This comment was included in its application to the Arkhom Grid (TEMPLE DOORS #1/2 '95, pgs 47-48). It also says that light groups can activate the lightning bolts in Arkhom when they achieve that capability. Thus it implies the same for any situation.
