

TEMPLE MANDALA: "MENON UR" used with the EDEN GATE on the SOLOMAE TEMPLE axis.

#### NOTES:

This mandala is a template that supplements the "EDEN GATE" as described in Genesis 3:24 where Cherubim (number not stated) "keep the way of the Tree of Life." The Gate has a sword ("chereb", a "Chor" white, cleansing fire) that turns every way. (View as a sphere with an infinite number of radii each functioning as a 2-mouthed sword (Hebrews 4:11-14).

The square is the "temple" ..the "Shin" (ThothHorRa's Trident) holds a three-fold flame the Eternal Spark... the symbols above and below the "Watch Words" (THR called them) through which to access the power of the temple from Above and Below. The hands with sun and moon are the human imprint / access to the World Matrix. Menon is the name of the Sirian being at Mt. Sinai. The meaning of the word is to "cast into the flame and thereby create the finished work." "Ur" is the "House of God" as a merkabah vehicle of Spirit - transforming and not stationary."

The hands are placed as if you were facing a door as you face the medallion...and pressing hands on door. In a sense this medallion is representing the "door" (complete with entry codes) to the temple.

The two WATCH WORDS are:

**TUR'HAR'MUK:** opening from below and turning to the right.

**SUT'KHIM'TIRAK:** opening from above and turning to the left.

(Note that these are "L-Shifts" and could be viewed as golden ratio rhombic "Eyes of Ra.")

The 3-Fold Flame of Universal Continua... all generating ORDER, PERFECTION and BEAUTY (Love Personified in Light) in the Universe. No one flame is independent of the other.
